Nordik Moss
BY BENHOLM

Nordik Moss from Benholm gives you a huge range of beautifully natural, creative possibilities to define, complement and enhance interior spaces. From feature walls and framed panels to logo cut-outs and shapes, this virtually maintenance-free preserved moss can make a long-lasting impact on any room.

Why use Nordik Moss?

- Highly Versatile
- Virtually Maintenance Free
- Significant Acoustic Properties

Sustainable choice

Nordik Moss is a sustainable resource that is harvested by hand from the forest floor, and is 100% biodegradable. The moss is treated to preserve it using a natural mineral process. This means it does not grow or need any looking after. It is then coloured and we create our moss installations by hand, tuft by tuft, just as you want them.

Biophilic Design (noun) :
derived from the word
Biophilia which literally
means a love of life. It stems
from the Greek words for
Life (Bios) and Love (Philia). It
has become an important
concept for blending the
principles of Biophilia with
Architectural Best Practice

"Bringing the outside, inside."

Create beautiful spaces

Creativity
Preserved

We provide a complete service package including;
planning, creation and installation

With Nordik Moss, the creative possibilities are endless,
and whatever your design ideas may be, we can help
bring your vision to life.

Nordik Moss is light weight and easy to install, with no complex wall structures required.

Why choose Benholm Group?

At Benholm Group our creative experts are brimmed full of ideas, so you don't have to be.

We've got many years' experience to maximise the benefits of planting in your environment.

From concept to installation and ongoing maintenance, we enhance your venue with minimal disruption to you. Our highly trained, uniformed maintenance technicians call at optimum levels to maintain your plant displays and keep them in peak condition. Any ailing or overgrown plants are replaced free of charge.

Our team is on hand to advise and provide you with attractive proposals that suit your premises both visually and financially.
