CHRISTMAS

nordman	317
oslo	317

Nature has given us everything. From the air we breathe, to the food we eat. We're not apart from nature – we're part of it. Its well-being is our well-being. And when it flourishes, we flourish. It's our dream to build a greener, better world – and encourage others to join us.

So let's Learn from nature – be amazed by it, inspired by it, and let's share our knowledge with others, so we can grow, together. Let's Love nature, surround ourselves with it, and bring it back into our daily lives. And let's Return the gifts the earth has shared with us. Let's be inspired by the cyclicity of nature, and repair, reuse and recycle. Because small actions today... cause big changes tomorrow.

That's why it is our mission to bring today's nature into people's daily lives and stimulate people to work together with nature. That can be in the comfort of your own garden or home but also in your neighbourhood. Did you know? A green neighbourhood connects local residents and stimulates biodiversity in the city. This makes people and nature happy.

We are encouraging people to surround themselves and their neighbourhood with greenery together. Let's work together, and step-by-step, we'll create a world where nature and people can blossom.

A multi-story red brick building with balconies covered in green ivy and potted plants. The balconies have dark metal railings and are decorated with several potted plants, including red and pink flowers. The ivy is lush and green, climbing up the brick walls and over the railings. The building has large windows and a modern architectural style. The overall scene is bright and sunny, suggesting a pleasant day.

THE BENEFITS OF *nature*

It makes you happier, it makes you
feel healthier and it boosts your energy.

WE
LOVE
TO *innovate*

Plants as a hobby

More and more people see plants as a hobby instead of just an object in their home or garden. This results in a more active attitude towards keeping plants, gardening and growing and harvesting. Not only because it is fun to grow your own vegetables and herbs, but also because it is tasty and healthy. Moreover, it is better for the environment to get vegetables from your own garden as much as possible.

Personal wellness

Personal wellness became more important than ever within covid time. Never ever before the separation between work and private life was so thin and a lot of leisure activities were not possible anymore in covid time. People rediscovered the pleasure of being in nature and feel that they can recharge themselves with plants. Plants bring feelings of vitality and improve the state of mind. An environment that includes natural elements and plants brings a positive outlook on life and boosts energy.

Sustainability

We are fully dedicated to take care of our planet for current and future generations. On our way to use 100% recycled plastic we think about the entire life cycle of our products and capture circularity in our design:

- Using sustainable resources
- No waste during the entire process
- Reusable / Recyclable

THEMES 2023

Plantcare

Learning to care for plants is challenging and might be a worry that keeps people from buying plants. Especially the younger generation is trying their hand at plant care as they set up homes of their own. Looking for plant care solutions for convenience and to avoid insecurities or compensate lack of knowledge.

We take the next step in worry free plant enjoyment since the consumer is seeking for convenience. We offer easy solutions to keep plants alive.

INSPIRATION FOR OUR INNOVATIONS

Watercare

The excesses and shortages of water has led to practices such as rainwater harvesting and rainwater conservation. More and more people are looking for smart water management solutions. The use of a rainbarrel will provide an alternative to using tap water for watering lawns, flower gardens and houseplants. It will help reduce peak water demands during the summer months. And it will save money.

**VIBIA CAMPANA
BALCONY TROUGH
SIZES 50 - 70CM**

Further extending the succesful vibia campana product family with balcony troughs with integrated saucer to offer plants a water reservoir. In 2 sizes, with and without balcony racks. The high quality, its rounded shape, soft texture and friendly colours make it a great offer in the midsegment.

personal wellness

2

**VIBIA CAMPANA
DRAINPIPE CLICKER**

This year, we introduce a vibia campana drainpipe clicker. The perfect concept to utilise unused outdoor surfaces, like drainpipes and turn it into a lush oasis. Now with a redesigned universal hanging system, applicable on all common drainpipe sizes 68-100mm. The high quality of the vibia campana products, its rounded shape, soft texture and friendly colours make sure this is a great offer in the mid-segment. Offering more soil capacity for plants to grow healthy.

sustainability

3

**GREEN BASICS
GROWPOTS SQUARE ALL-IN-1
SIZES 15 - 20 - 25 - 30 - 35CM
& GROW TRAYS ALL-IN-1
SIZES 32 - 39CM**

Tiny growgarden facilitating growing your own vegetables, herbs and fruit. With integrated saucer, which is easy to water via the spout, and including a grow house for an optimal growth climate and protection.

our inspiring INNOVATIONS

**GREEN BASICS
RAINBARREL PLUS
SIZES 110 - 200LTR**

The new rainbarrel plus offers all consumers the opportunity to save water in a sustainable way, whether they have a small or a large garden. The rainbarrels have a broad appealing design, include a tap and a stand, in order to optimally use the collected water and a planter on top. Made out of 100% recycled plastic and of long-lasting quality because of its frost and UV-resistance.

**GREEN BASICS
RAINBARREL DIVERTER**

To connect a rainbarrel to the drainpipe, this diverter is easy to install as it fits to all common drainpipes sizes, round and square.

AND MORE *innovations*

NOA GROW TABLE

A complete new grow table including a grow house and all convenient product features you can think of. Supporting consumers to grow their own fruit, herbs and vegetables, even on a small outdoor space. The integrated water reservoir and water filling meter help to water your plants in a correct way, the tray offers additional space for accessories and the detachable legs and plug are convenient to clean up after the growing season. In 3 beautiful colours with a powdered texture.

B. FOR SWING

An innovative and elegant plant hanging concept to vertically green up your interior. Including high quality, sustainable robes in different lengths so you can hang up 1 pot or combine 2 pots. Easy to water via the waterspout in the pot shape or combine it with the self-watering insert.

THE OCEAN COLLECTION SIZES 14 - 16 - 18 - 22CM

Beautiful indoor pots with marble look made from fishing nets and robes which are preventively collected so they don't pollute the oceans and the seas. Each pot has a unique look.

sustainability

plants as a hobby

1

GROW YOUR OWN INDOOR BOUNCY BASIL

A fun and convenient way to keep your basil plant healthy. Beautiful designed with a large water reservoir to prevent your basil plant from drying out.

AMAZING AVOCADO

Offering consumers the possibility to grow their own avocado plant from a pit. Either with the pot, which includes a water reservoir, or with the floater.

MAGIC MICROGREENS

The beautiful design is an eyecatcher in your kitchen and makes growing your own microgreens very easy.

THE
POWER
OF *colour*

New trends in the collection 2023 are based on 4 style trends:

SUSTAINABLE HEDONISM

This style trend is about seeking peace and balance in an easy and comfortable way. This is reflected in the use of balanced colours like the new colours: stone green, toffee terra and soft terra.

COLOURS

367 754 755

ODE TO NATURE

More and more it dawns on us that we are not separate from nature, but that we are one with nature. In terms of colours, this leads to a natural colour palette of greens and browns, like the new colours moss green and clay brown.

COLOURS

368 768

VINTAGE VOLKLORE

More respect for the lifespan of a product is related to this style trend and is found in colours that expresses this feeling, like the new colour sorbet green.

COLOURS

369

EXISTENTIAL POWER

Nature also has an enormous, fascinating power which is reflected in diverse colour palette like the new colour dove blue.

COLOURS

541

We are impactful by creating with nature in mind: our collection is sustainably produced, made out of recycled plastic and recyclable. And of course, produced with renewable energy from our own windmill. As your most sustainable partner we are always aiming to do more and it is our ambition to make the world a better and greener place for current and future generations. Will you join us?

and ... we are proud of our 2,000,000 bees producing our own honey in our backyard.

THE BEAUTY OF WASTE

designer pots made out of **recycled** plastics

LET'S BE RELEVANT

PRODUCT INNOVATIONS

The Dutch design team is dedicated to surprise with unique and breakthrough innovations, inspired by nature and on-top-of evolving consumer trends, and uses a revolutionary weather and UV protection technology. This allows our products a long-lasting colour. Best quality guaranteed.

LET'S
GROW
TOGETHER

elio

A photograph of an outdoor patio area. In the foreground, three potted plants in light grey pots sit on a wooden deck. The plants include a fern, a Philodendfon, and a large-leafed plant. To the left, a small black table holds a white teapot and a plate of pastries. A person's feet in white sneakers are visible on the left. The background shows a lush green lawn and trees with white spherical ornaments hanging from a branch.

COLLECTION

GREENSENSE AQUA CARE

Need some assistance with taking care of your plants' water needs? The greensense aqua care makes it easier than ever before with the integrated water reservoir which can be filled directly from the water inlet. The water level is easy to read with the indicator. This designer pot is made with 100% recycled plastics and finished with a concrete-like texture.

VIVO NEXT

Meet the new vivo. This next generation is improved in many ways. A total new construction, which is stronger than before, contains a large and smart water reservoir and is now made with recycled material. These beautiful cube shaped pots are easy-to-move thanks to the integrated wheels. A plug makes these pots the ideal dividers for both outdoor and indoor spaces. Newly added in the range are the smaller sizes of 30cm square and 30x60cm rectangle.

VIBIA CAMPANA BALCONY

This family has a classic but contemporary look with its slightly rounded body, still elegant and perfectly suited to voluptuous and outgoing plants. Made with a rough, high-quality texture, available in a range of soft, cheerful, and on-trend colours that will brighten up balconies and rooftop railings even more. New addition to the range: balcony troughs in two commercial sizes plus a drainpipe clicker to utilise unused outdoor spaces to surround yourself with green.

VIBIA CAMPANA TERRACE

This family has a classic but contemporary look with its slightly rounded body, still subtle and perfectly suited to voluptuous and outgoing plants. Made with a rough, high-quality texture, available in soothing, natural tones that fit perfectly with the natural vibe of nowadays gardens.

ALGARVE

A real classic collection with a Mediterranean look due to the unique floral pattern. The matching saucers, wheels and light weight quality make these planters easy to use and move. Made out of recycled plastics.

NICE THINGS TO KNOW ABOUT THE FAMILY

HOLES IN BOTTOM

SAUCER SUPPORTS PLANT

EASY TO MOVE

MADE OUT OF RECYCLED PLASTICS

LIGHT WEIGHT

LONG-LASTING COLOUR

FROST PROOF

cilindro

terrace wheels

DID YOU KNOW?

The bottom of the algarve pots is slightly elevated which makes it perfect to combine with growpots and stimulates plant growth.

GREEN BASICS GROWPOT SQUARE ALL-IN-1

NOA

Grow your own vegetables, fruit and herbs with the new worry free noa grow table! The integrated water reservoir with convenient water level indicator ensures that your plants always have sufficient water. The water reservoir is easy to fill with a watering can via the watering funnel. The matching grow house gives your plants the best growth climate and protects against birds, heavy rain and direct sunlight. Other features like a tray to store your accessories, removable legs for easy storage and a plug to remove excess water complete the grow table.

NOA GROW TABLE

GROW YOUR OWN INDOOR

The new collection to grow your own indoor! Products with a beautiful, modern design in ton-sur-ton colours. Real eyecatchers in the kitchen or windowsill. The bouncy basil with floating watering system keeps your herbs fresh and healthy. With the magic microgreens you grow your own microgreens year round. In 5 days to 3 weeks, depending on the chosen microgreens, you can already harvest this superfood. The amazing avocado pot and floater make it possible to grow your own avocado plant. A fun way to make your home a little greener !

A photograph of a living room interior. In the foreground, a large, light-colored, ribbed ceramic pot holds a tall plant with large, dark green, heart-shaped leaves. To the left, a wooden side table holds three smaller plants in colorful pots (yellow, orange, and blue). On the table, a stack of four books is visible, with titles including 'The MONOCLE Book of Gentle Living', 'THE HINTERLAND', 'SCANDINAVIA DREAMING', and 'THE GREAT WIDE OPEN'. In the background, a window with white horizontal blinds is partially open, and a portion of a light-colored sofa is visible on the right. The overall atmosphere is bright and modern.

indoor

COLLECTION

THE OCEAN COLLECTION

The pots from the ocean collection are made with maritime plastic, such as fishing nets, ropes and trawls. Our oceans are getting more polluted by this plastic ending up in our precious oceans. By using this waste in our pots, we help preventing this. The origins of the discarded ropes and fishing nets are presented in the blue and green marble accents. Admiring the beauty of our oceans and truly showing the beauty of waste.

bowl

Dutch designer duo Daphna Laurans:

‘The b.for studio literally takes your plants to a higher level. The way in which the pot and the stand meet and the unification of the two elements were important to us when designing the collection.’

BRUSSELS ORCHID

The orchid is a plant with beautiful flowers and deserves a specially designed pot; our pots with raised bottom ensure an optimal humid climate for the orchid's roots. Through the transparent pots, you can easily see when your orchid needs watering, so you can fully enjoy the beauty of your orchid.

FLOORPROTECTOR

A person in a light blue long-sleeved shirt is watering a large, lush green fern in a dark grey pot. The person is holding a dark grey watering can with a white handle and spout. The fern is overflowing from the pot. In the background, there is a wooden cutting board on a shelf, a white teapot, and two white mugs. Another potted plant is visible in the background. The scene is set in a bright, indoor environment.
